

- ### UNICEF's Mission and Innovation Process
- UNICEF's mission of fulfilling the needs and rights of children drives the whole process.
 - UNICEF has to initiate, manage and monitor the process from need identification to handover and rights fulfillment.
 - UNICEF makes innovations available to children by making potentially effective, but high risk and costly commodities and interventions much more effective, simple, accessible and affordable.

Multiple-Partnership in Innovation Process

- Different partners will be involved at different stages. Typically in following processes
 - Local & International NGOs, Development institutions (identification, piloting)
 - Like minded flexible donors, Government ministries (packaging, institutionalization)
 - Big donors, IFIs (scaling up)
 - Local Government, Community (all process)
 - Corporate and Private Sector (handing over)
 - Households. (handing over)

Resource Needs for Innovation Process

- Different types and sizes of resources will be used in different stages:
 - Identification: Small RR
 - Piloting: Medium RR & Soft OR
 - Packaging: Medium RR & Soft OR
 - Institutionalization: Medium size OR
 - Scaling up: Big OR, big and specific OR, Loans from development bank,
 - Handover: Locally controlled funds, Corporate partnership, community cost sharing, and household self financing.
