Recent Dilemma and Demand

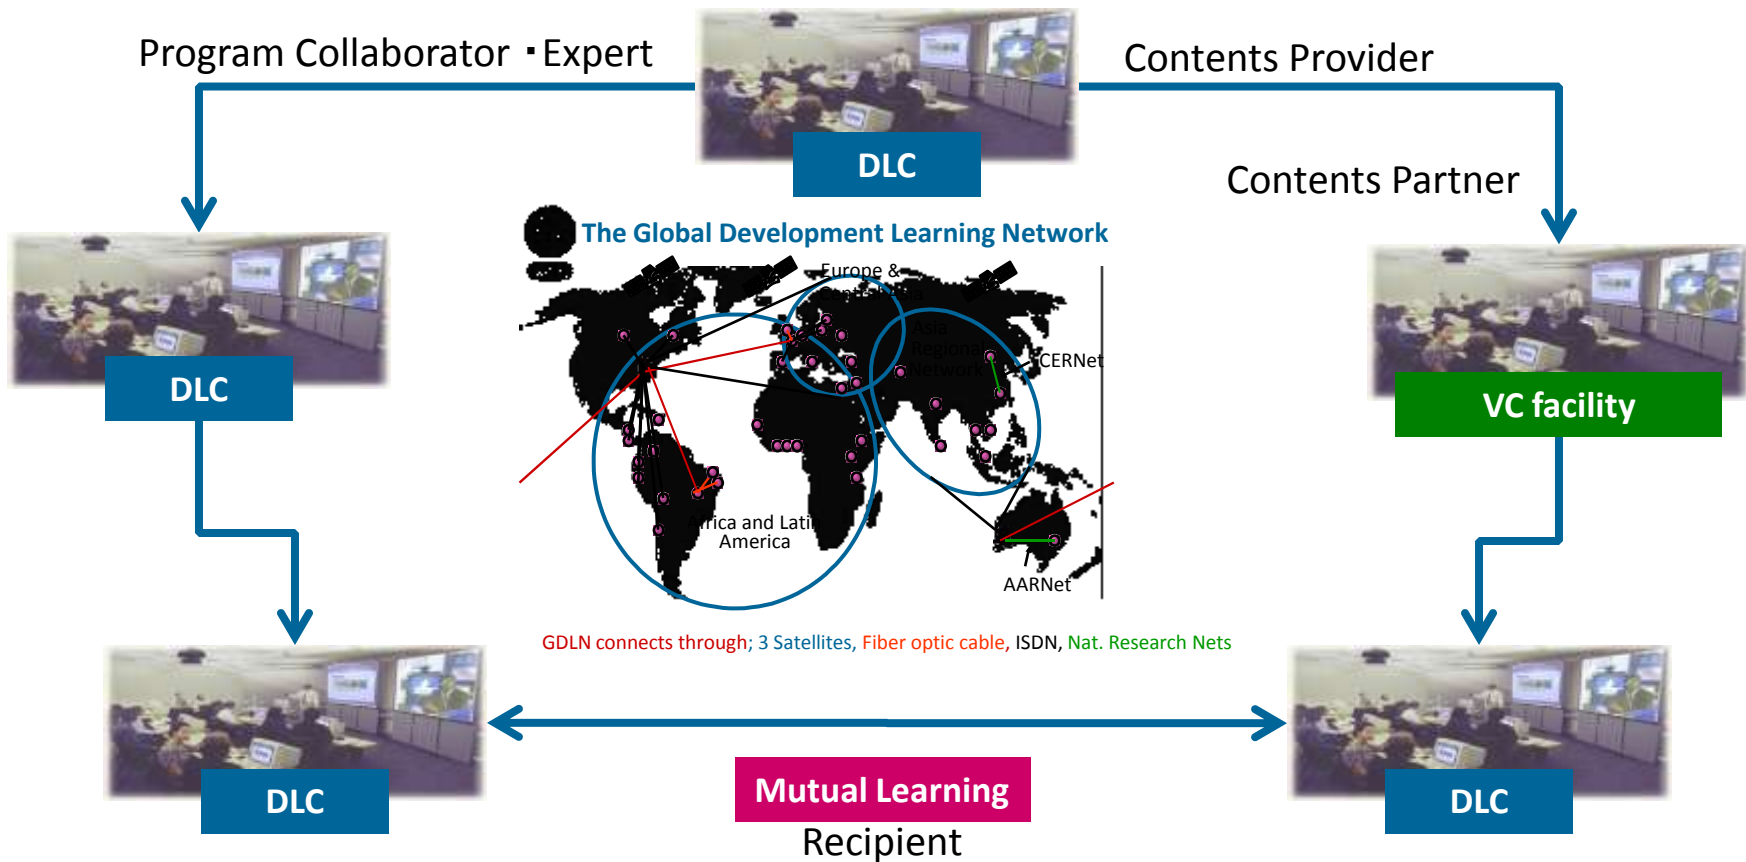

- “Jasmine Revolution” and MICs
- “Food Crisis” and Poverty

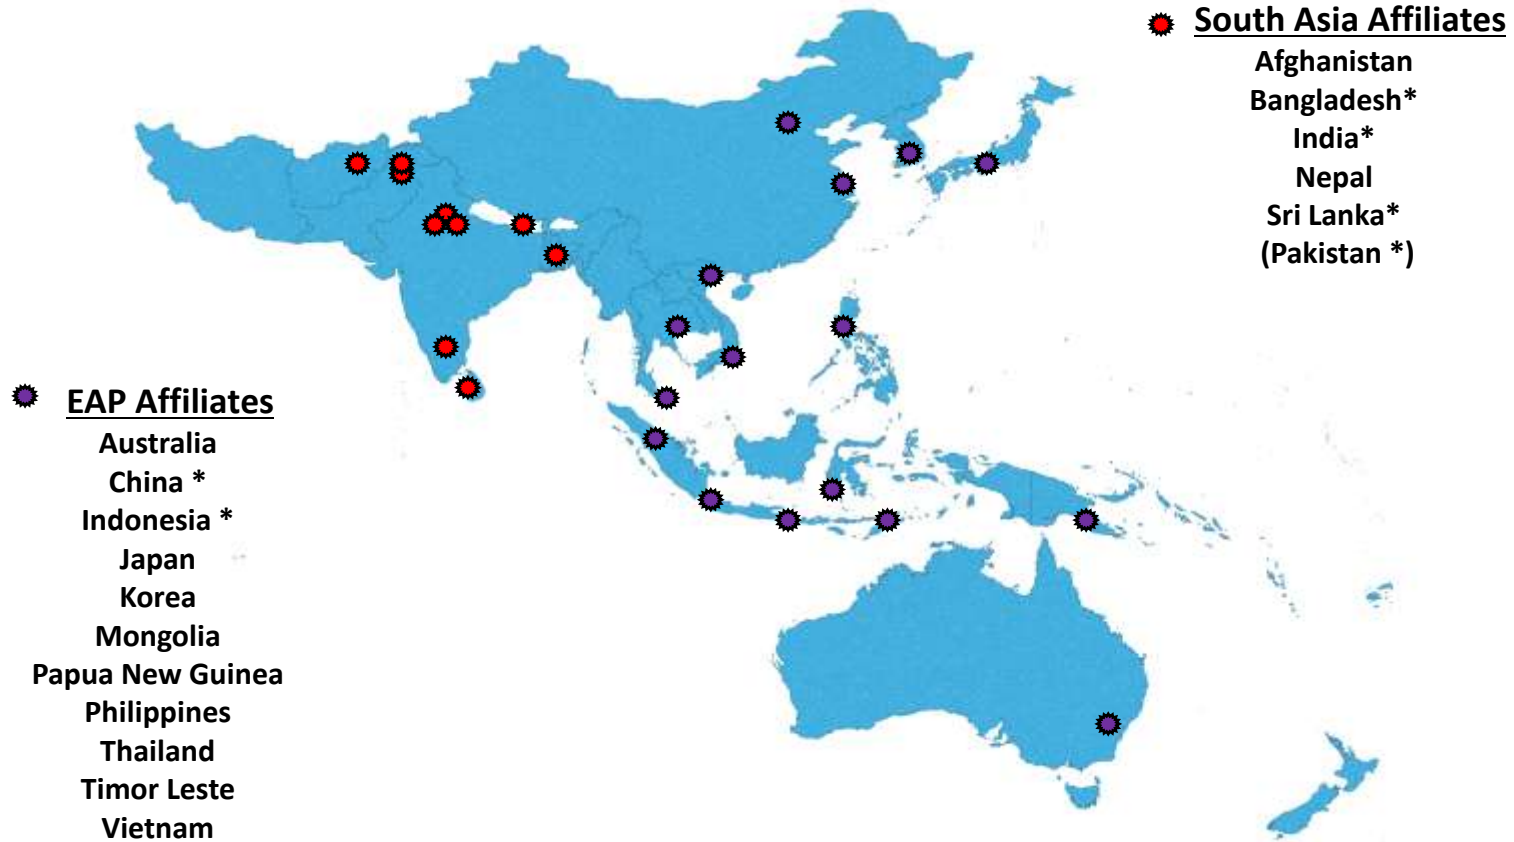

More growth, More employment, Less inflation.

- Rapid demand of new leverage typed development model is required.
- Rapid demand increase of knowledge/expertise/experiences sharing.

GDLN

GDLN is a global network to share knowledge and experiences on development and poverty alleviation

* Countries with in-country networks.

TDLC Update

TDLC's Fundamental Role

1. Exchange of Knowledge

- To serve as a platform for **exchange of knowledge and experience** on development, through partnerships with various public and private organizations in Japan and the region.

2. Building Capacity and Learning to Support Growth

- Play an instrumental role in **supporting growth and building the capacity** of **GDLN** affiliates in the region, serving as a virtual hub for the regional **GDLN** community.

TDLC Phase 2 (July 2010- March 2015): Strategy

Three Strategic Pillars

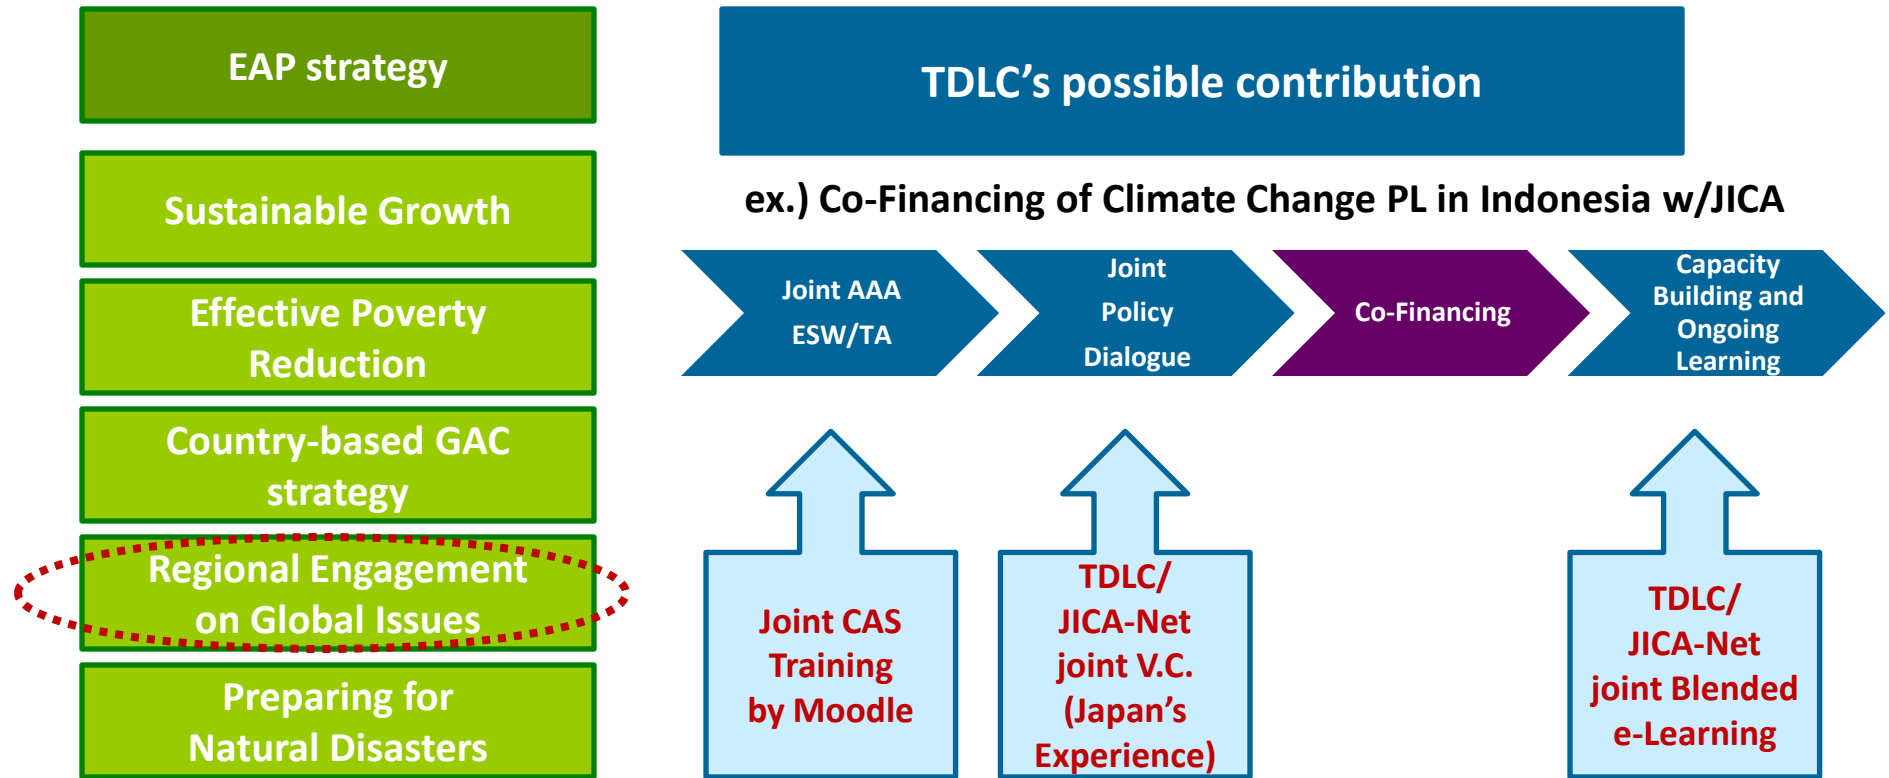

- Learning program design and delivery (Public Goods Model)
- Knowledge sharing platform on development issues
- Technology leadership and network development

Business Mainstreaming in Phase 2

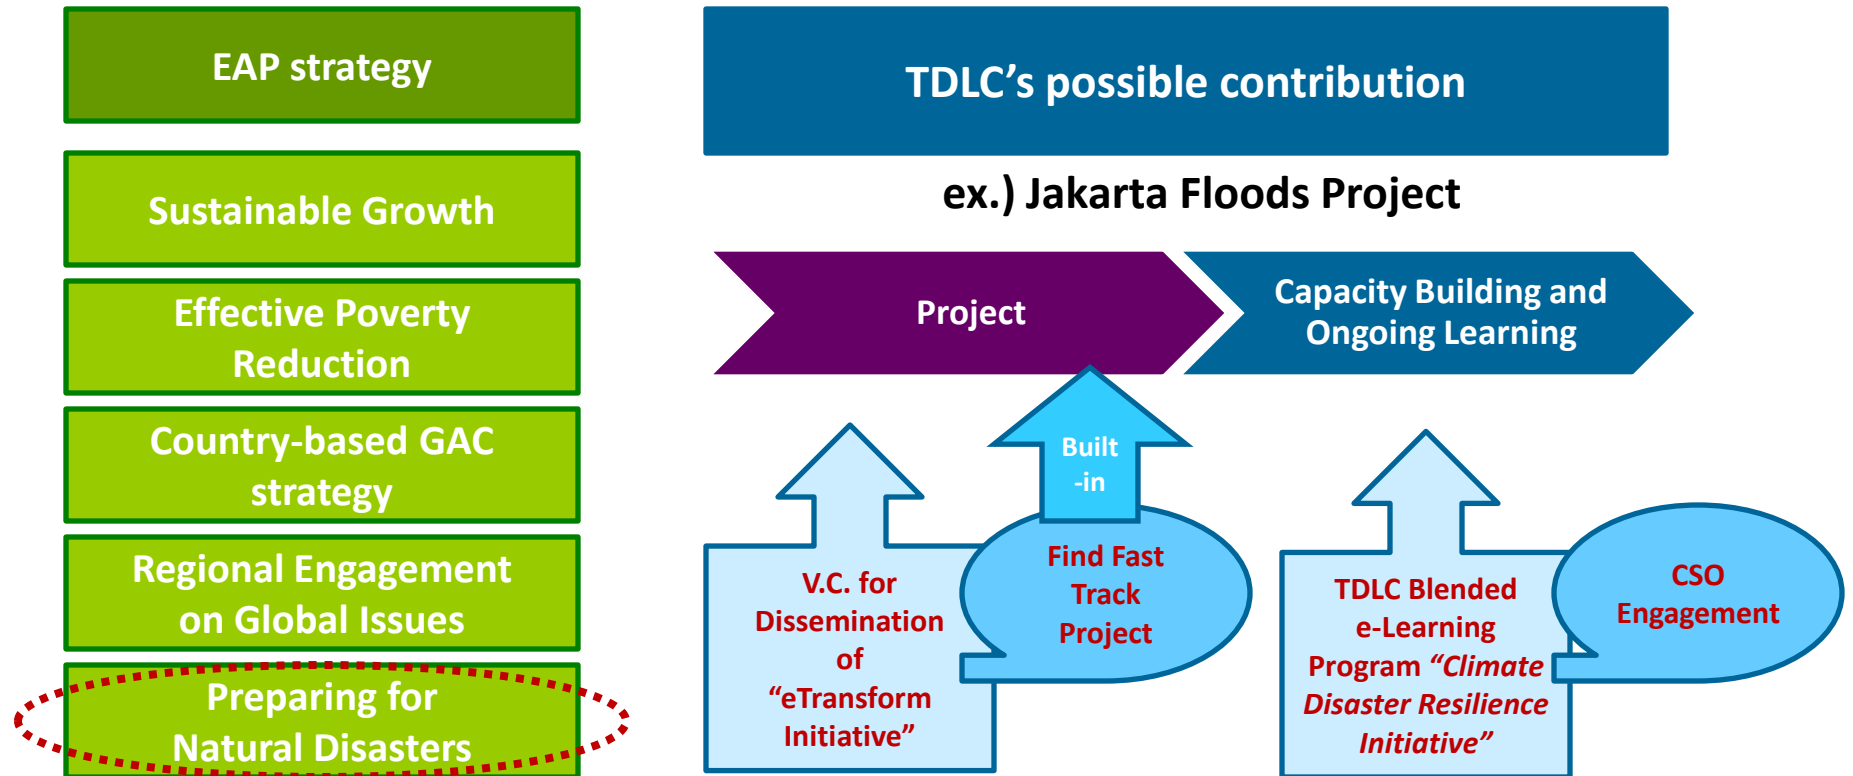

Mainstream TDLC activities and services as part of broader EAP and Bank knowledge dissemination, outreach and capacity building strategies.

- Scale up TDLC's role as a platform for dissemination of key analytical reports and research activities
- Facilitate knowledge exchange, disseminate outcomes and impacts of other WB-GoJ partnership programs, e.g. JSDF
- Channel TDLC's flagship capacity building and learning programs and to meet the training needs of Bank projects in EAP countries

1. Exchange of Knowledge and **TDLC** Mainstreaming

2. Supporting Growth and Building Capacity and **TDLC** Mainstreaming

TDLC's Challenges

- How to secure development impact under three strategic pillars?
- How to ensure real outreaching to the poverty?
- How to prove its rationality to the sponsor?
